

Design Intern

Random International are looking for a design intern to join our team for six months on a full time, paid basis. Experience with practical mechanical/electronic design and build is desirable. Reporting directly to a design lead, the intern will be involved in a number of projects across numerous stages.

Requirements

- Good hands-on workshop experience
- Experience with 3D CAD (preferably Solidworks) and rendering
- Highly organised
- Ability to prioritise tasks
- Good timekeeping
- Ability to work as part of a team and independently
- Keen interest in varied and challenging work

To apply, please send an up-to-date CV, covering email specifying the role you are applying for, and a PDF portfolio (no more than 5MB) to work@random-international.com by midnight 30th October.
